MASCA DEL TACCO

## NEW PACKAGING. SAME QUALITY.

**Masca del Tacco** is always committed to look for innovative packaging suitable for easier communication of the products offered, keep going to do that by renewing the aesthetics, and not the quality, of some of the most representative wines of the Apulian company.

Taking the opportunity of the restyling, the company also presents the latest born in the house, the **Susumaniello Rosato**, a wine produced with the intention of continuing to communicate this grape, but in a new guise and with an attractive packaging.
